

LCGA: 6-Class Solution – All Trajectories

BIC = 4203.0 | Entropy = 0.920 | AvePP = 0.942 | n = 114 faculty
Y-axis capped at 15 (95th pct). Points = observed class means.

LCGA: 6-Class Solution – Individual Panels

Line = model-predicted trajectory. Points = observed class means. Y-axis free per panel.

Slope Estimates by Class – 6–Class Solution

Slope on sqrt(pub_count) scale. Error bars = 95% CI. n.s. = not significant ($p > .05$).
